

Enrollment Records Required for Start of Term

Subject: Enrollment Records Required for Start of Term

Dear Family,

Before your child can begin classes on September 1, 2026, the school must receive the following records:

- Immunization documentation
- Emergency contact form
- Updated health information form

If the records are not received by August 25, 2026, your child may experience a delay in class placement.

Some records may already be on file, but families should verify that all information is current. If any document is unclear or missing, the Health Office will contact you.

Please do not send confidential medical details by regular email unless instructed by staff. You may submit forms through the student portal or deliver them in person.

Questions:

Health Office

Phone: (555) 019-4420

Email: healthoffice@pinecrest.example.edu

Office Note: students with special health accommodations should speak with the school nurse directly.
